# Introduction

The Higher Education Institutional Staff Profiles by Gender collate gender disaggregated data from Irish higher education institutions (HEIs) that are in receipt of annual core-grant<sup>1</sup> funding from the HEA. These profiles provide information on key indicators which will contribute to the assessment of gender-equality in Irish HEIs. This publication offers a valuable baseline from which progress can be measured, and includes all grades of staff, in seven universities, three colleges, eleven institutes of technology, TU Dublin and RCSI.

# **Governance and Management Structures**

The gender of each president (or equivalent) is listed.

The gender-balance on governing authority/body, academic council, and executive management teams is provided per HEI, and the sector summaries indicate the number of institutions that have a minimum 40% of each gender on these key decision-making bodies.

### **Staff**

Staffing information collected includes:

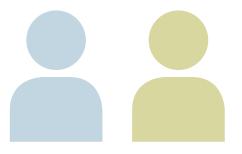

- Staff by category of post (academic core-funded staff, Professional, Management and Support core-funded staff, research/specialist academic staff, research/specialist Professional, Management and Support staff).
- Academic staff by discipline.
- Academic staff by contract type.
- Professional, Management and Support staff by contract type.
- Professional, Management and Support staff by pay grade.
- Recruitment and promotion data for academic staff (sector summaries only).

The data in these profiles is presented as whole time equivalent (WTE), or Headcount where appropriate.

# **Athena SWAN**

The profiles also list Athena SWAN institutional and departmental awards won by HEIs. Athena SWAN awards are important indicators of progress towards gender equality.
