Data Collection Information

The table below details which personal data are collected during applications to the North-South Research Programme 2021, and who are they accessible to. This includes all information related to reviews of those applications. All data are submitted through the HEA's online grants management system, *WizeHive*.

Guide to terms/acronyms used, or roles specified, in this document

Applicants (AP) = People who submit applications for consideration for funding

Panel Members (PM) = People who agree to complete reviews of applications. These people meet to discuss the reviewed applications and decide on the final ranking order of such applications.

HEI/RPO = Higher education institution/Research performing organisation

Programme Team (PT) = The HEA staff who run the North-South Research Programme 2021. These people have access to all data submitted through *WizeHive*.

Research offices/officers/Endorsement signatory (ROs/ES) = Staff in HEIs/RPOs who support applicants in making proposals to the North-South Research Programme 2021.

Collected data are described here under the following three headings (see below). Firstly, the data collected on WizeHive, "Data type". Secondly, the reason why these data are collected "Purpose for collection". Lastly, who these data are revealed to during the normal running of the call "Shared with". After the call is finished, applicants will be given access to reviews, where this is the case, the applicant is indicated in blue text. Personal-identifying information about reviewers is not shared. Nor are the applicants given access to specific scores or remarks provided by individual assessors.

Where the process, as it stands, reveals personal identifying data where we would prefer it not to be, the persons to which this information is potentially **shared with** are marked in **red text**.
