Observations	41529	41529	41529	41529	41529	41529	41529

Standard errors in parentheses

\*  $p < 0.1$ , \*\*  $p < 0.05$ , \*\*\*  $p < 0.01$

Coefficients show percentage point difference in non-progression compared to the reference category. Calculated using logistic regression models of non-progression and transformed into percentage points using marginal effects in Stata.
