

Information Note: Revisions to Socio-Economic Profiles 2020/21

Updated: 22 November 2023

The HEA Socio-Economic Profiles were published November 2022. Data within the publication was revised on 22 November 2023.

An issue was identified with a filter applied on two graphs, namely “Deprivation Index Scores by Field of Study” in Chapter 3 Course Profile and “Deprivation Index Scores by County of Home Address” in Chapter 4 Geographic Profile.

The following are tables that outline the discrepancies identified in relation to the Socio-Economic Profiles report. All discrepancies identified are in relation to the subtotals. Figures per field of study or per county are unaffected.

Table 1 outlines the changes to Deprivation Index Scores by Field of Study.

<i>Deprivation Index Score - Field of Study Table</i>						
HEI	Version	Affluent	Marginally Above Average	Disadvantaged	Marginally Below Average	Avg. DIS
