

HEA Corporate Strategic Plan 2027-2030: Consultation questions

1. Four years on from the introduction of the Higher Education Authority Act 2022, have you a view on how the HEA has performed in the delivery of its new mandate?
2. What are your views on the current Corporate Strategic Plan 2023-2026 Strategic Themes – Develop, Fund, Regulate & Oversight, Advice?
3. How might HEA Strategic Priorities better reflect the breadth of Functions (Section 9) of the HEA as per the Higher Education Authority Act 2022?
4. In your view, what are the Strategic Priorities that the HEA should focus on over the next three years that will support the Sector's response to the opportunities and challenges presented by recent geopolitical, social, environmental, and economic developments. How might the Strategic Priorities support the Sector in responding to these developments?
5. What are the implications of emerging technological advances such as AI, changing world of work and future skills needs, and demographic and population changes for the Sector, and how might HEA Strategic Priorities support the agility of the Sector in responding to these advances and changes?
6. How can HEA strategy balance the requirement to place student needs at the centre (within available resources) and empower HEI staff while addressing sectoral challenges related to funding, research, and infrastructure?
7. Are there any other considerations that you would like to highlight?
